### What is February famous for?

The second month of the year brings us George Washington's Birthday, Valentine's Day, and the shortest month of the year. In the Gregorian calendar, the calendar that most of the world uses, February is the second month of the year. Most of the months have 30 or 31 days in a month but February is shorter.

There are many legends as to why we have Valentine's Day in February. This is just one of those legends.

The most popular theory about Valentine's Day's origin is that Emperor Claudius II didn't want Roman men to marry during wartime. Bishop Valentine went against his wishes and performed secret weddings. For this, Valentine was jailed and executed. While in jail he wrote a note to the jailor's daughter signing it "from your Valentine".
