Happy

Birthday

- January 1 Htoo Brown
Kyi Pyu
Ni Taw Tha Pyu
Moe Tay
Mu Pu Tay
- January 3 Jason Jarvis
- January 5 Brian Anderson
- January 7 Willie Phillis
- January 8 Jim Anderson
- January 9 Gladys Reamy
- January 10 Blay Htoo
- January 12 Gail Trent
Tom Van Deventer
- January 13 Terry Jarvis
- January 17 Andrea Trent
- January 19 Vera Mathis
- January 20 Nathaniel Trinrud
- January 24 David Luzadder
Mulu Zerihoun
- January 26 Jesse Gradel

According to the American Red Cross, winter is “one of the most difficult times of year to collect enough blood products to meet patient needs.” That’s because of, among other things, busy holiday schedules and bad weather often resulting in canceled blood drives.

Furthermore, seasonal illnesses such as the flu force potential donors to forgo their blood donations. That’s just one of the reasons that National Blood Donor Month, which has taken place each January since 1970, is such an important observance. Donating blood saves many lives and improves health for many people. According to the World Health Organization, “blood is the most precious gift that anyone can give to another person - the gift of life.

A decision to donate your blood can save a life, or even several if your blood is separated into its components — red cells, platelets and plasma.”

HOW TO OBSERVE NATIONAL BLOOD DONOR MONTH

1. DONATE - Not just in honor of National Blood Donor month, but in the spirit of providing the stuff of life to those who need it the most.
2. INSPIRE - This month can inspire people to donate, and in turn inspire others to donate.
3. LEARN and REMEMBER your blood type. What is your blood type? O Positive donors are needed more often. O Negative are “universal donors”. AB positive are “universal recipients”.

You can receive . . .
